Would you prefer:

a fair society and a citizen-led end to the fossil  
fuel era  
or

continued harm to all humans and the planet,  
locked in by corporate elites?

From 21st April, 100,000 people will choose a future  
at the Houses of Parliament in 'The Big One', a  
four-day show of strength of citizens,  
impossible to ignore.

Everyone is welcome. Groups and  
movements must unite to survive,  
to transform together, address  
inequality and restore the  
living world.

**IT'S UP  
TO US.**
